

DWA_04.3 Knowledge Check_DWA4

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

1. Use Clear and Concise Language: Clear and concise language ensures that your message is easily understood by your audience. Avoid unnecessary jargon, complex sentence structures, and excessive wordiness. Focus on delivering your message in a straightforward and succinct manner.

2. "Use const instead of var." This promotes immutability and prevents accidental variable modifications.

3. "Use arrow functions (=>) for anonymous functions." They provide a concise syntax and automatically bind this value.

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

A) "Don't use eval()." It's not recommended because it can be risky and slow down your code.

B) "Use ++ and -- sparingly." Using them too much can make your code harder to understand.

C) "Avoid the with statement." It can cause problems with how your code works and makes it harder to maintain.
